

MEETING MINUTES:10 MAY 2025

- **Sally**-Opened the meeting
 - we need to plan properly
 - Everyone needs to push into our repository
 - Asked Wakhiwe on user stories
 - Software implementation we should do 7 user stories
 - Continuous integration is mostly covered
 - Asked about TDD
 - Available to push
 -
- **Wakhiwe**-we were able to complete more of requirements
 - Need to write minutes for previous meetings
 - Need one more user story and they need to be in the correct formate
 - Notion- for task keeping
 - would adding files cause problems
- **Sesihle** – working on Jest and code coverage
 - Deploy on azure
 - 2.4 % code coverage.50 % by morning
 - TDD is looking good
 - Keep main very clean
- **Khusello**-Try to keep the meeting short
 - Done with MongoDB
- **Doyern**-Very Proud for following delegations
 - Give functionality
 - Try cleaning our code
- **THORISO**-Completed the UML diagram and it is now relevant to the current structure of our code.
 - was taking todays minutes
